Kendall
Luxury Vinyl

When Cutler Design set to work on the interior of **Kit and Ace's** flagship store in Vancouver, British Columbia, they selected materials to complement the clothing brand's technical, functional, and comfortable apparel. Like the clothing, the floor material had to be durable and stand the test of time. It also needed to enhance the organic appeal of the clothing's fabrics and clean, crisp tailoring while serving as a neutral palette for comparing colors and textures. Evoke's luxury vinyl Kendall was the perfect fit. Offering a contemporary yet elegant visual presentation on a robust, commercially rated vinyl platform, Kendall complements the down-to-earth aesthetic of Kit and Ace's busy downtown retail environment.
