

METROPOLITAN

# The Bohème

Dallas, Texas, USA

## Applications

Clubhouse

Featuring

**KENTWOOD®**

**Brushed Oak  
Coos Bay Herringbone**  
Bespoke Collection

Boldly creative and eclectic, **The Bohème** pays homage to its proximity to the Bishop Arts District in Dallas, Texas, a lively area home to art galleries, bars, restaurants, and independent retailers. The Bohème's clubhouse, the gathering spot for residents of the eight-story multi-family building, abounds with color and comfort. For the clubhouse's main floor area, designer Leslie Fossler of Leslie Fossler Interiors chose Brushed Oak Coos Bay Herringbone from Kentwood's Bespoke Collection. The flooring's refined aesthetic and luxurious look harmonize with the bold design elements in play throughout the space.
